REDUCING WASTE

SHARED COMPOST

Sharing compost with
neighbors

1

OBJECTIVES

Reduce organic waste going to landfills and create nutrient-rich compost for local gardens

2

EXPECTED RESULTS

Decreased waste in landfills and improved soil quality for gardens in the neighborhood

3

TERRITORIAL SCOPE

Your building garden or immediate neighborhood

4

PEOPLE INVOLVED

Local citizens, neighbors in your building, or local gardening enthusiasts

5

OBSTACLES

Limited space for composting bins and ensuring proper participation from neighbors

ARE YOU LOOKING FOR
INSPIRATION? LOOK HERE

HOW COULD YOU IMPLEMENT IT?

BASIC APPROACH

Make a composting bin together with your neighbors and provide guidelines on what can be composted.

CREATIVE APPROACH

Organize composting workshops to teach neighbors about the benefits of composting and how to do it more effectively (introduce them to earthworms).

MAIN STEPS

Find an acceptable place for a composting bin

Local citizens

Local organisations

Find an available space /or do it in the common garden

Make a composting bin

Local citizens

Local citizens

Gather neighbors and other local enthusiasts

Provide clear guidelines on what can and cannot be composted

Local citizens

Local citizens

Prepare for the workshop and make it interesting
